GOVDATAHOSTING

CLOUD CONNECTED	DATA SECURE	HHS AUTHORIZED

GovDataHosting is YOUR preferred source for HHS application cloud migration, consolidation, and modernization services.

GovDataHosting, through its parent company IT-CNP, Inc., is an awardee of the HHS Next Generation Information Technology Solutions (NGITS) Application Hosting Blanket Purchase Agreement (BPA).

GovDataHosting was chosen by HHS due to its proven capabilities and extensive record of accomplishments in providing FedRAMP/HHS certified cloud hosting, experience in application migration to the cloud, and all-inclusive HHS cloud security compliance services.

Our NGITS Application Hosting solutions include:

- **Consolidation of HHS applications and data to eliminate redundancy**
- **Professionally managed migration to a modernized and scalable cloud platform**
- **Results driven task order planning and post-award cloud transition support services**
- **Total application lifecycle support to reduce cost and complexity**
- **Turnkey technical and HHS security compliance assistance**

Our projects are always on time, within budget, on target, and now available through the HHS NGITS Application Hosting contract.
